Report No: SR01-009

Date: JANUARY 2001

TITLE: MODEL112TC W WALK SUPT

Model: Model 112TC

D I S C U S S I O N :

The purpose of this report is to provide a Structural Modification for the wing walk support of a Commander Model 112TC, S/N 13042.

The main landing gear has been reported to have an interference with the Wing Walk Support, P/N 175015-501/-502. The interference is with the wheel brake.

The modification of the wing walk support as defined in this report will provide clearance the same as for the Model 112B, 112TCA, 114A/B/TC P/N 175015-503/-504 Wing Walk Support.

C O N C L U S I O N S :

The installation of the modification as defined in this report will maintain the identified Commander Model 112TC to the applicable FAA Regulations.

	MECHANIC	INSPECTOR
1) Inspect the main landing gears and support structures for any signs of damage or abnormal extension of the struts. Report any damage.		
2) Modify the lower flange of the P/N 175015-501/-502 Wing Walk Supports as shown on page 4. The fore and aft location may be adjusted to center on the existing interference A/R within +/- 1 inch from the location shown.		
3) Restore finish A/R.
